- B. No verbal agreement or conversation with any officer, agent, or employee of the Owner, either before or after the execution of the Contract, shall affect or modify any of the terms, conditions, or other obligations set forth in any of the Contract Documents. All Contract modifications must be in writing from the authorized agent of the Owner and be in the form of a Contract Change Order.

4. REMEDY OF DEFECTS

If, in the opinion of the Owner, a defect exists, or functional or structural deterioration takes place, or substantial departure from the standards or original construction exists in the Work or improvements as stated in the definition of "guaranty/warranty", the Owner shall so notify the Contractor by certified letter mailed to the address given in the Contractor's Proposal, or to the Contractor's last business address known to him who gives the notice. It is mutually agreed that such notice shall be sufficient and adequate. It is mutually agreed that such notice shall be sufficient and adequate.

6. PROPOSALS

- A. Proposals must be submitted on forms furnished by the Owner and endorsed as provided in the Contract Documents.
- B. Proposals must be submitted filled out with ink or typewriter, and without erasure, interlineation or changes, and if not made in accordance with the Contract Documents, will be subject to rejection as irregular. The Owner reserves the right to waive any irregularities or informalities.
- C. Proposals shall be made in the name of the principal and if a co-partnership, the names of all partners shall be given. Exact post office address shall be given in all cases. If Proposals are submitted by an agent, satisfactory evidence of agency authority must accompany the Proposal.

7. NON-CONFORMING PROPOSALS

- A. Proposals shall be considered non-conforming and may be rejected for the following reasons unless otherwise provided by law:
 - 1. If the Proposal Form furnished to the Bidder by the Owner is not used or is altered.
 - 2. If there are unauthorized additions or conditional bids, or irregularities of any kind which may tend to make the Proposal incomplete, indefinite, or ambiguous as to its meaning.
 - 3. If the Bidder adds any provisions reserving the right to accept or reject any award, or to enter into a Contract pursuant to an award.
 - 4. If the unit or lump sum prices contained in the Bid schedule are obviously unbalanced either in excess or below the reasonable cost analysis values.
 - 5. If the Bidder fails to insert a unit cost for every Bid item indicated.
 - 6. If the Bidder fails to complete the Proposal in any other particulars where information is requested so Bidder's Proposal may be properly evaluated.
- B. The Owner reserves the right to reject any or all Bids and to waive irregularities or informalities as may be deemed best and in the Owner's interest.

8. WITHDRAWAL OR REVISION OF PROPOSALS

- A. A Bidder may, without prejudice, withdraw a Proposal after it has been deposited with the Owner, provided the request for such withdrawal is received by the Owner, in writing or by telegram, before the time set for opening Proposals. Telephonic communications shall not be accepted. After opening of Bids, no Proposal may be withdrawn by the Bidder for a period of 45 Days or as otherwise required by law.
- B. Any Bidder may modify his Bid by telegraphic communication any time prior to the scheduled time for opening Proposals, provided such telegraphic communication is received by the Owner prior to the opening of Proposals, and, provided further, the Bidder provides compelling evidence that a written confirmation of the telegraphic modification over the signature of the Bidder was

mailed prior to the opening of Proposals. The telegraphic communication should not reveal the Bid price but should provide the addition or subtraction or other modification so that the final prices or terms will not be known by the Owner until the sealed Bid is opened. If written confirmation is not received within two (2) days after the scheduled time for opening Proposals, no consideration will be given to the telegraphic modifications.

9. CORPORATE BIDDERS

The Bidder submitting the request will be responsible for its prompt and actual delivery. Any interpretation of such documents will be made by addendum duly issued, and a copy of such addendum will be mailed or delivered to each Bidder receiving a set of such documents. The Owner will not be responsible for any other explanations or interpretations of such documents which anyone should make on behalf of the Owner.

11. POST-QUALIFICATION OF BIDDERS

- A. The Owner reserves the right to request a financial statement, together with a statement of past experience, personnel, Construction Equipment available to perform the proposed Work from any Bidder considered for Award of a Contract. Failure or refusal to furnish such a statement or statements, or failure to provide a satisfactory statement of financial responsibility shall constitute a basis for disqualifying any Bidder.
- B. The Owner also reserves the right to require evidence of satisfactory operation of any Equipment offered and to be incorporated into the Work for the number of years set out in the Equipment Specifications.

12. OR EQUAL CLAUSE

The inclusion of a manufacturer's name, trademark, or other proprietary identification of a product shall not limit competition, but shall establish a standard of quality, implying an "or equal" clause, unless expressly specified otherwise (see Special Conditions). However, the substitution of a product in place of that specified shall be permitted only upon the Owner's issuance of written approval in the form of an Addendum or Change Order to the Contract in response to a formal request submitted by the Contractor sufficiently in advance to allow adequate time for evaluation by the Owner. If the Owner, in his sole discretion, determines that tests are necessary for a proper evaluation, such testing shall be performed as specified by the Owner and at the Contractor's expense.

The substitution of a product shall be subject, without limitation, to any requirements listed in the Special Conditions or other parts of this Contract and the following conditions:

1. It is determined by the Owner that the proposed substitute product is equal or superior in properties, quality, character, and appearance to that specified;
2. Such changes as may be required in the Work to install the substitute product and to properly integrate it into the Work are approved by the Owner;
3. All costs for changes due to substitutions are the full responsibility of the Contractor.
4. The Contractor will provide at least the same warranty for the substitution that the Contractor would provide for the product specified;
5. The effect of the substitution on the total cost of the Work is approved by the Owner.

13. RETURN OF BID SECURITY

Bid security of the lowest two or more Bidders may be retained until the Contract is executed or rejection made by the Owner. Other Bid security will be returned if requested only after the tabulation of Bids is completed.

14. REJECTION OF BIDS

The Owner reserves the right to reject any Bid if investigation of such Bidder fails to satisfy the Owner that such Bidder is properly qualified to carry out the obligations and to complete the Work contemplated by the Contract Documents. Any or all Proposals will be rejected if there is a reason to believe that collusion exists among the Bidders.

15. AWARD

The Owner will proceed to consider the Proposals and reserves the right to reject any or all Bids, to pass upon the regularity, or waive any irregularity or informality of the Bidders and the acceptability of the Surety offered. The Owner will Award the Contract by written Notice of Award.

16. SECURITY - CONTRACT

- A. The Contractor shall furnish two separate surety bonds (the form of which shall be substantially as attached), each in an amount at least equal to one hundred (100) percent of the Contract Price as security for the following:
 1. The faithful performance of the Contract and the terms, conditions, and stipulations contained therein;
 2. Payment of all laborers and mechanics for labor performed and payment for all Materials and Equipment furnished and for all Materials and Equipment used or rented in the performance of the Contract.
- B. The Surety on such bonds shall be satisfactory to the Owner and shall be a duly authorized Surety company licensed to do business in the State of Colorado, and appearing on the latest Federal Register circular 570 as published by the Department of the Treasury unless otherwise approved by the Owner. Page 33

- D. The Contractor shall within ten (10) consecutive Calendar Days from and including the date of receipt of Notice of Award, furnish the Owner with the required "Performance Bond" and "Labor and Materials Payment Bond" each in a sum equal to the amount of the Contract Price.
- E. If at any time, a Surety or any such bond shall become insolvent, is declared bankrupt, loses its right to do business in the state in which the Work is to be performed, or is no longer listed in Department of the Treasury Circular 570, Contractor shall within ten (10) Days after notice from the Owner to do so, substitute acceptable bonds in such form and sum and signed by such other sureties as may be satisfactory to the Owner.

17. DATE OF CONTRACT

A formal written Contract will be entered into by the parties and be binding upon the Owner and Contractor when approved and executed by the Owner. The date of the Contract shall be the date the Contract is executed by the Owner.

18. FAILURE TO EXECUTE CONTRACT

Should the successful Bidder fail to execute the Contract and furnish bond or bonds satisfactorily to the Owner, or validate the same within ten (10) Calendar Days after Award of Contract, his Bid security shall be forfeited to the Owner as a penalty.

19. SCHEDULE OF CONSTRUCTION AND COMPLETION

The Contractor shall submit to the Owner within fourteen (14) Days after award of Contract, or as may be otherwise requested by the Owner, a schedule showing the order in which the Contractor proposes to carry on the Work and at a rate sufficient to successfully construct all of the Work set forth in the Contract Documents within the Contract Time. Such schedule shall show the dates at which the Contractor will start and complete the several parts of the Work, and the order of construction and delivery dates of critical Materials and Equipment. The schedule shall be subject to approval by the Owner. The schedule shall be binding on the Contractor and shall be complied with by the Contractor unless, for good cause shown, a modification of the schedule shall be requested in writing to and approved by the Owner in accordance with General Conditions, Section 75, Extension of Contract Time.

20. ORDER OF CONSTRUCTION

Where the Owner's operations require specific sequencing of the Work, such sequencing requirements as provided for in the Contract Documents shall be followed.

21. TAXES

- A. Contractor shall pay all sales, consumer, use or other similar taxes required to be paid in accordance with the laws and regulations of the place of the Project which are applicable during performance of the Work. Owner is exempt from Colorado State, and City of Montrose sales and use taxes on Materials and Equipment to be permanently incorporated into the Work. Said taxes

shall not be included in the Contractor's Bid or the Contract Price.

- B. Contractor shall apply to the Colorado Department of Revenue for an exemption certificate and purchase the Materials and Equipment tax free (Section 39-26-104, C.R.S. as amended). Contractor shall be liable for exempt taxes paid due to the failure to apply for exemption certificates or failure to use said certificates.

22. ASSIGNMENTS

The Contractor shall not assign the whole or any part of the Contract or any monies due or to become due thereunder without the written consent of the Owner and of the Surety on the Contractor's Bond. A copy of such consent of Surety, together with a copy of the assignment, shall be filed with the Owner. If the Contractor assigns all or any part of any monies due or to become due under the Contract, the instrument of assignment shall contain a clause substantially to the effect that it is agreed that the right of the assignee in and to any monies due or to become due to the Contractor shall be subject to prior claims and liens of all persons, firms, and corporations for services rendered; for the payment of all Materials and Equipment furnished and for payment of all Materials and Equipment used or rented in the performance of the Work called for in the Contract; and for the payment of any liens, claims, or amounts due the Federal, State, or local government or any of their funds.

23. SUBCONTRACTING

- A. The Contractor may utilize the services of specialty Subcontractors on those parts of the Work which, under normal contracting practices, are performed by specialty Subcontractors.
- B. The Contractor shall not award any Work to any Subcontractor without prior written approval of the Owner. This approval will not be given until the Contractor submits to the Owner a written statement concerning the proposed award to the Subcontractor, which statement shall contain such information as the Owner may require.
- C. The City of Montrose encourages all Contractors to utilize minority, disadvantaged, and women-owned businesses whenever possible.
- D. The Contractor shall be as fully responsible to the Owner for the acts and omissions of his Subcontractors, and of persons either directly or indirectly employed by them, or under their control, as he is for the acts and omissions of himself and of persons directly employed by him.
- E. The Contractor shall cause appropriate provisions to be inserted in all Subcontracts relative to the Work to bind Subcontractors to the Contractor under any provision of the Contract Documents, including all insurance requirements.
- F. Nothing contained in the Contract Documents shall create any contractual relationship between any Subcontractor and the Owner.

24. SEPARATE CONTRACTS

- A. The Owner reserves the right to let other Contracts in connection with the Work, to include deletions in portions of this Contract. The Contractor shall afford other Contractors reasonable opportunity for

the introduction and storage of their materials, machinery, equipment, supplies, and the execution of their Work, and shall properly connect and coordinate his Work with theirs.

- B. If any part of the Contractor's Work depends upon the Work of any other contractor for proper execution or results, the Contractor shall inspect and promptly report in writing to the Owner any lack of progress or defects in the other contractor's Work that render it unsuitable for proper execution or results. Failure on the part of the Contractor to so inspect and report shall constitute an acceptance of the other contractor's Work as fit and proper for the reception of the Contractor's Work. - D. The passing of title to the Owner as herein provided shall not be construed as relieving the Contractor of the sole and complete responsibility for:
1. The care and protection of the Work, Materials and Equipment, for which payment has been made.
 2. The restoration of any damaged or destroyed Work, Materials, or Equipment. Such responsibility shall continue until all Work under the Contract has been completed and accepted by the Owner.
- E. Prior to Substantial Completion, progress payments will be made in an amount up to the percentages indicated below, but in each case, less the aggregate of payments previously made and less such amounts as Owner may withhold in accordance with General Conditions, Section 44 Payment Withheld:

If the Work has been fifty (50) percent completed as determined by the Owner, and if the character and progress of the Work have been satisfactory to the Owner, Owner may determine that as long as the character and progress of the Work remain satisfactory to it, there will be no additional retainage except as provided by the General Conditions for state law.

2. Ninety five (95) percent (with the balance being retainage) of Materials and Equipment not incorporated in the Work, but delivered, suitably stored and accompanied by documentation satisfactory to the Owner as provided by the Contract Documents.

Pursuant to Section 24-91-101, C.R.S., et. seq., Contractor may substitute acceptable securities for the whole or any portion of the retainage.

- F. Under no circumstances shall payment constitute a waiver of the Owner's right to require the Contractor to fulfill all of the terms and conditions of this Contract.

44. PAYMENT WITHHELD

- A. The Owner may withhold payment or, on account of subsequently discovered evidence, may nullify the whole or part of any payment certificate of such extent as may be necessary to protect the Owner from loss on account of any one or more of the following:

The Contractor's obligation to perform and complete the Work in accordance with the Contract Documents shall be absolute.

- A. When the Contractor considers the Work to be substantially complete, the Contractor shall make a written request to the Owner for the issuance of a Certificate of Substantial Completion. The acceptance of final payment by the Contractor shall operate as a release to the Owner of all claims by the Contractor for all things done or furnished in connection with the Contract and for every act and neglect of the Owner, and others relating to or arising out of the Work under the Contract, except for claims previously made in writing and still unsettled.
- B. No payment, final or otherwise, shall operate to release the Contractor or his Surety from any obligations under the Contract or under the Performance Bond or Labor and Materials Payment Bond, including, but not necessarily limited to any one or more of the following:

The Owner, reserves the right, at any time during the progress of the Work, to make necessary alterations of, deviations from, additions to, or deletions from the Contract, or to require the performance of Extra Work neither covered by the Plans and Specifications nor included in the Contractor's Proposal, but forming a part of the contracted Work.
- B. The Contractor shall not proceed with any Changed or Extra Work without a written Contract Change Order approved by the Owner. Any Changed or Extra Work performed by Contractor without approval from the Owner shall be done solely at the Contractor's risk; the Contractor hereby waives any claim for additional compensation.
- C. Changed or Extra Work shall in no way injuriously affect to invalidate the Contract or the Contractor's bonds, but the difference in cost shall be added to or deducted from the Contract Price, as the case may be. No anticipated profits shall be allowed for Work deleted. Adjustments, if any, in the Contract Price by reason of any such Changed or Extra Work shall be determined by one of the following methods in the order as listed. Adjustments, if any, in the Contract Time by reason of any such Changed or Extra Work shall be determined in accordance with General Conditions, Section 75 Extension of Contract Time.
 - 1. Method A By unit prices contained in the Contractor's Proposal for the same type or class of Work.
 - 2. Method B If applicable unit prices are not included in the Contractor's Proposal, then by an acceptable unit sum price Proposal from the Contractor.
 - 3. Method C If unit prices are not available and a unit sum price Proposal cannot be agreed on, then by an acceptable lump sum price Proposal from the Contractor.

4. Method D If the Owner and the Contractor cannot agree on pricing per Method B or C before the Owner requests the Contractor to begin Work on the Changed or Extra Work then the Contractor shall be paid the "actual field cost" (as defined by Paragraph F below) of the Work completed by his own forces plus a fifteen (15) percent markup.
- D. Method A -- Whenever any Changed or Extra Work is to be done, for which unit prices for the same type or class of Work are contained in the Contractor's Proposal, such Work shall be done, measured and paid for pursuant to Method A hereinabove set forth and the applicable portion of the Contract Documents.
- E. Methods B and C -- Methods B and C shall include an itemized cost breakdown for labor (including labor man-hours), Materials and Equipment, Construction Equipment (including rental equipment), Subcontractor costs, incidental expenses, overhead and profit. In determining the amount payable to the Contractor, an additional five (5) percent may be added to the amount payable to a Subcontractor, but no "pyramiding" or additional percentage shall be authorized for any Work done by a Subcontractor.
- F. Method D -- When any Changed or Extra Work is performed under Method D, the term "actual field cost" of such Changed or Extra Work is hereby defined to be and shall include:
1. The actual payroll cost, of all workmen such as foremen, equipment operators, carpenters, electricians, mechanics, and laborers, for the time actually performing the Changed or Extra Work.
 2. The actual cost of all Materials and Equipment incorporated in the Changed or Extra Work.
 3. The cost of all Construction Equipment for the time actually employed or used in the performance of the Changed or Extra Work based on the Colorado State Department of Transportation's Equipment Schedule in force at the date of the Contract Change Order Request.
 4. Transportation charges necessarily incurred in connection with any Construction Equipment authorized by the Owner for use on said Changed or Extra Work but which is not already on site.
 5. The actual cost of all power, fuel, lubricants, water, and similar operating expenses as well as other expendable materials.
 6. All incidental expenses incurred as a direct result of such Changed or Extra Work, including payroll taxes, and a prorata portion of premiums related to the Contractor's bonds and where the premiums therefor are based on payroll costs, on insurance required by the Contract.

When any Changed or Extra Work is performed under Method D, the Owner may direct the form in which the accounts of the actual field costs shall be kept and may also specify in writing, before the Work commences, the method of doing the Work and the type and kind of Construction Equipment, if required, which shall be used in the performance of the Changed or Extra Work.

When any Changed or Extra Work is performed under Method D, the fifteen (15) percent markup of the "actual field cost" to be paid to the Contractor shall cover and be full compensation for the Contractor's general superintendence, field office expense, home office overhead, profits, and all other elements of cost not embraced within the "actual field cost" as defined herein. In determining the amount payable to the Contractor, an additional five (5) percent may be added to the amount payable to a Subcontractor, but no "Pyramiding" or additional percentage shall be authorized for any Work done by Subcontractors.

- G. The Contractor shall furnish satisfactory bills, payrolls, and vouchers covering all items of cost and when requested by the Owner, give the Owner access to accounts relating thereto.
- H. Any Changed or Extra Work shall be considered a part of the Contract, subject to all of its terms, conditions, stipulations, review, guaranties, and tests and may be performed without notice to the Surety on the Contractor's bonds. The Contractor and Surety hereby agree to these provisions.

60. CLAIMS FOR EXTRA COST

- A. In case any instructions, either oral or written, appear to the Contractor to involve Changed or Extra Work for which, in his opinion, he should receive extra compensation, the Contractor shall make a written request to the Owner for a Contract Change Order authorizing such Changed or Extra Work. Should a difference of opinion arise as to what does or does not constitute Changed or Extra Work, or concerning the payment thereof, and the Owner insists on this conformance, the Contractor shall proceed with the Work after presenting a written notice of its Claim for Extra Cost to the Owner. Performance, by Contractor, of the Work in question shall not in any way prejudice the Contractor's ability to receive compensation per its Claim for Extra Cost.

The Contractor shall keep an accurate account of the "actual field cost" thereof as provided for in Method D under General Conditions, Section 59 Changed or Extra Work. The Contractor shall thereby not waive any right he might have to compensation for the Claim for Extra Cost in connection with the Changed or Extra Work. Upon receipt of the Contractor's Claim for Extra Cost, the Owner will make a final determination as to whether or not Changed or Extra Work was involved, and if so, the amount due to the Contractor.

- B. Any Claims for Extra Cost pursuant to this Section, together with supporting documents and receipts, must be filed within ten (10) consecutive Calendar Days after performing the Work for which Extra Cost is claimed. The Owner shall have the right to reject any Claim for Extra Cost if the foregoing procedure is not followed.
- B. In giving verbal instructions, the Owner shall have the authority to make minor changes that do not involve extra cost or time of performance and are not inconsistent with the design concept and purposes of the contracted Work; but otherwise, except in an emergency endangering life or property, no Changed or Extra Work shall be performed unless in pursuance of a Contract Change Order approved by the Owner, and no Claim for Extra Cost shall be valid unless so approved, except as otherwise provided herein.

61. CONCEALED OR UNKNOWN CONDITIONS

If conditions are encountered at the site which are (1) sub-surface or otherwise concealed physical

conditions which differ materially from those indicated in the Contract Documents or (2) unknown physical conditions of an unusual nature, which differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the Contract Documents, then written notice by the observing party shall be given to the other party promptly before conditions are disturbed and in no event later than ten (10) Days after first observance of the conditions.

The Owner shall promptly investigate such conditions and, if they differ materially and cause an increase or decrease in the Contractor's cost of, or time required for, performance of any part of the Work, shall provide an adjustment in the Contract Price or Contract Time, or both. If the Owner determines that the conditions at the site are not materially different from those indicated in the Contract Documents and that no change in the terms of the Contract is justified, the Owner shall so notify the Contractor in writing, stating the reasons. Opposition to the Owner's determination must be made in writing by the Contractor, stating his reasons therefor, within ten (10) Days after the Owner has given notice of the decision.

62. GUARANTY PERIOD

- A. The Contractor hereby agrees to keep all Work constructed under the Contract in Good Repair for a period of two (2) years from the date of Initial Acceptance, unless a longer period is otherwise specified in the Contract Documents. Upon written notice by certified mail from the Owner or the Owner's representative to the Contractor of any aspect of the Work found by the Owner not to be in Good Repair, the Work shall be remedied by the Contractor. Such remedy shall be made without further cost to the Owner, including in part, all damages caused by such defect, deficiency, deterioration, or departure, and by its repair, replacement or correction.
- B. It is intended that this provision shall apply whether or not a bond is required, as a personal obligation of the Contractor. If the Contractor shall not proceed to remedy such defects, deficiencies, deteriorations, or departures called to his attention in the notice within seven (7) consecutive Calendar Days after mailing of notice, and diligently pursue such repairs, the Owner may cause the repairs to be made as the Owner deems best and the entire cost thereof shall be paid by the Contractor or its Surety or deducted from any amounts as are due to the Contractor from the Owner.
- C. The obligations of the Contractor as herein provided shall be in addition to and not in limitation of any obligations imposed upon by him by special guaranty or warranty required by the Contract Documents or otherwise prescribed by law.

63. AUTHORITY OF OWNER

- A. The Owner, or his duly authorized representative, shall furnish engineering services during construction of the Work to the extent provided in the Contract Documents. He shall observe and review the Work in the process of construction or erection. Compliance with the Contract Documents shall be the Contractor's responsibility notwithstanding such observation or review. The Owner has authority to recommend suspension of the Work when it appears such suspension may be necessary to accomplish the proper implementation of the intent of the Contract Documents.

The authority to observe, review, or recommend suspension of the Work, or exercise such other authority as may be granted by the Contract Documents, shall not be construed or interpreted to mean supervision of construction, which is the Contractor's responsibility, nor make the Owner responsible for providing a safe place for the performance of Work by the Contractor or by the Contractor's employees or those of suppliers or Subcontractors or for access, visits, use, work, travel, or occupancy

by any other person. The Owner shall also have the authority to reject any or all Work, Materials, or Equipment which do not conform to the Contract Documents and to decide technical questions which arise in the execution of the Work.

- B. The Owner shall determine the amount, quality, acceptability, and fitness of the several kinds of Work, Materials, and Equipment which are to be paid for under the Contract and shall decide all questions which may arise in relation to said Work and the construction thereof.

The Owner's estimates and decisions shall be final and conclusive, except as otherwise expressly provided. In case any question shall arise between the parties to the Contract relative to the Contract Documents, the determination or decision of the Owner shall be a Condition Precedent to the right of the Contractor to receive any money or payment for Work under the Contract affected in any manner or to any extent by such question.

- C. The Owner shall decide the meaning and intent of any portion of the Contract Documents where the same may be found obscure or to be in disagreement.

64. DECISIONS OF THE OWNER

The Owner, through its duly authorized representatives, shall within a reasonable time after appropriate notice, make decisions in writing on requests, disagreements and claims between the Contractor and Owner. Such decisions shall be regarded as final.

65. PERSONAL LIABILITY OF OWNER

In carrying out any of the provisions of the Contract or in exercising any power or authority granted thereby, there shall be no liability upon the Owner or his duly authorized representatives, either personally or as an official of the Owner, it being understood that in such matters, they act as agent and representatives of the Owner.

66. AUTHORITY AND DUTIES OF OWNER'S FIELD REPRESENTATIVE

- A. Inspectors are placed on the Work to keep the Owner informed as to the progress of the Work and the manner in which it is being done; to keep records; act as liaison between the Contractor and the Owner; also to call the attention of the Contractor to any deviations from the Contract Documents, but failure of the Inspector to call the attention of the Contractor to Defective Work or deviations from the Contract Documents shall not constitute acceptance of said Work.
- B. The Inspector may reject or accept Materials and Equipment to be incorporated in the Work, and such specific items as he is authorized by the Owner to accept.
- C. When any Material or Equipment has been accepted by the Inspector, it passes from his control to the control of the Contractor and remains there until the Work, as a whole, is complete. Since the Inspector cannot control how the Material or Equipment is used, the responsibility for its safety and proper use shall be the Contractor's. Until the job is finally completed, the Contractor may do Work that changes or modifies Work previously done, and even though at any given time, a portion of Work might be well done and acceptable in quality, the responsibility for keeping it in that condition until the Work is complete is the sole responsibility of the Contractor. For this reason, it is impossible to

accept, finally, any portion of the Work until the Project as a whole is acceptable and control of said Project is withdrawn from the Contractor by Final Acceptance by the Owner.

- D. Since one of the Inspector's primary interests is to see that Work on the Project progresses expediently and in a Good and Workmanlike Manner, he may at various times offer suggestions to the Contractor, which the Contractor may or may not follow, at his discretion. Such suggestions are never to be considered as anything but suggestions, and involve no assumption of responsibility, financial or otherwise, by either the Inspector himself, or the Owner.
- E. Any personal assistance which an Inspector may give the Contractor will not be construed as the basis of any assumption of responsibility in any manner, financial or otherwise, by the Inspector, or the Owner.
- F. The Inspector is not and does not purport to be a Safety Engineer and is not engaged in that capacity by the Owner and shall have neither authority nor the responsibility to enforce construction safety laws, rules, regulations, procedures, or the safety of persons on and about the construction site.
- G. The presence or absence of an Inspector on any job will be at the sole discretion of the Owner, and such presence, or absence of an Inspector will not relieve the Contractor of his responsibility to obtain the construction results specified in the Contract Documents.
- H. The Inspector shall not be authorized to approve or accept any portion of the Work or to issue instructions contrary to the Contract Documents. Such approvals, acceptance or instructions, when given, must be in writing and signed by the Owner. The Inspector shall have authority to reject Defective Materials and Equipment; however the failure of the Inspector to reject Defective material or any other Work involving deviations from the Contract Documents shall not constitute acceptance of such Work.
- I. Nothing in this subsection shall in any way be so construed as to require or to place responsibility for the method, manner or supervision of the performance of the Work under this Contract upon the Inspector, or the Owner. Such responsibility rests solely with the Contractor.

67. CONTRACTOR'S EMPLOYEES

- A. The Contractor shall provide and maintain, continually on the site of the Work during its progress, adequate and competent superintendence of all operations for and in connection with the Work under the Contract. The Contractor shall either personally superintend his Work or shall cause it to be done by a capable Superintendent acceptable to the Owner. Such representative shall be able to read, write, and speak English fluently and shall be authorized to receive instructions from the Owner. Said Superintendent shall have authority to see that the Work is carried out in accordance with the Contract Documents and in a first class, thorough, and Good and Workmanlike Manner in every respect.
- B. Incompetent, disorderly, intemperate, or incorrigible employees shall be dismissed by the Contractor or his representative when requested by the Owner, and such person shall not again be permitted to return to the Work without the written consent of the Owner.
- C. The Contractor agrees to indemnify and hold the Owner harmless from any and all loss or damages arising out of jurisdictional labor disputes or other labor troubles of any kind that may occur during the construction and performance of the Contract.

- D. The Contractor shall provide, at the request of the Owner, such reasonable information about his employees as may be necessary, including in part, name address and social security number.

68. CONSTRUCTION REVIEW AND TESTING

- A. During the progress, the Work shall be subject to the review and observation of the Owner. The Contractor shall afford every reasonable facility and assistance to the Owner to make such review. If any Work is covered up without approval or consent of the Owner, it will be uncovered for examination at the Contractor's expense.
- B. The fact that the Owner is on the job site shall not be taken as an acceptance of the Contractor's Work or any part of it. The Contractor shall notify the Owner upon completion of his Contract, and the Work shall be given final construction review by the Owner, and any tests and re-tests shall be witnessed by the Owner or his representative. If all parts of the Work are acceptable and substantially comply with the intent of the Contract Documents, Initial Acceptance shall be made by the Owner. If parts of the Work are not acceptable and require additional Work by the Contractor to complete the Project, necessitating additional cost, the costs shall be paid for by the Contractor to the Owner.
- C. Contractor shall submit to the Owner, ten (10) Days in advance of construction and without charge, Samples or Specifications of Materials and Equipment he proposes to use and shall not use these Materials and Equipment until he has received approval from the Owner.
- D. Contractor shall furnish tests and reports on tests of all Materials and Equipment called for in the Contract Documents. The testing laboratory must be approved by the Owner and the Contractor shall pay the cost of the test, and necessary re-tests, including all transportation charges unless otherwise provided by the Contract Documents.
- E. All tests and re-tests unless otherwise provided, shall be in accordance with the pertinent sections of the latest edition of the standards applicable to the material or devices to be tested. A partial list of the principal societies referred to and their abbreviations follows:
 - A.A.S.H.T.O. American Association of State Highway and Transportation Officials
 - A.C.I. American Concrete Institute
 - A.I.S.C. American Institute of Steel Construction
 - A.N.S.I. American National Standards Institute
 - A.S.T.M. American Society of Testing Materials
 - A.W.W.A. American Water Work Association
 - C.P.I. Clay Pipe Institute
 - C.S. Commercial Standards
 - F.S. Federal Specifications
 - N.E.C. National Electric Code
 - T.M.C.A. Tile and Marble Contractors of America
- F. All parts of the Work and improvements shall conform to the standard of construction as given in detail under the various items of the Contract Documents, and in general, to the intent thereof and if they do not conform, shall be made to do so by rebuilding or replacing or otherwise as instructed by the Owner, without further cost to the Owner.

- G. If after the commencement of the Work the Owner determines that any Work requires special inspection, testing, or approval not otherwise provided for, the Owner shall issue written authorization instructing the Contractor to order such special inspection, testing, or approval, and the Contractor shall give timely notice of its readiness and of the date arranged so the Owner may observe such inspecting, testing, or approval. If such special inspection or testing reveals a failure of the Work to comply with the requirements of the Contract Documents or with respect to the performance of the Work, with laws, ordinances, rules, regulations, or orders of any public authority having jurisdiction, the Contractor shall bear all costs thereof.
- H. Required certificates of inspection, testing, or approval shall be secured by the Contractor and promptly delivered by him to the Owner.

69. USE OR OCCUPANCY OF COMPLETED PORTIONS

- A. The Owner shall have the right to take possession of, use, or occupy any completed or partially completed portions of the Work, notwithstanding the time for completing the entire Work or any portions, may, or may not, have expired. Such taking possession, use or occupancy shall not be deemed an acceptance of any Work until all Work has been completed in accordance with the Contract Documents.

If such prior use or occupancy increases the cost, or delays the Work, the Contractor shall be granted an adjustment to the Contract Price or the Contract Time, or both, as Owner may recommend.

- B. Consent of Surety and endorsement from the insurance carrier or carriers permitting prior occupancy or use of any completed or partially completed portions of the Work by the Owner shall be secured by the Contractor. Contractor and his Surety and enforcement from the insurance carrier or carriers permitting prior occupancy or use of any completed or partially completed portions of the Work by the Owner shall be secured by the Contractor. Contractor and his Surety and insurance carrier hereby agree that such consent shall not be unduly withheld.

70. OWNER'S RIGHT TO CORRECT DEFICIENCIES

If the Contractor should neglect to prosecute the Work properly in accordance with the Contract Documents or fails to correct Work which is not in accordance with the Contract Documents, the Owner, after seven (7) Calendar Days' written notice to the Contractor, may, without prejudice to any other remedy the Owner may have, correct such deficiencies in Work intended to become a permanent part of the Project, and may deduct the cost thereof from the payment then or thereafter due the Contractor.

71. SUSPENSION OF WORK BY OWNER

The Owner shall have the right to suspend and reinstate execution of the whole or any part of the Work contracted for without invalidating the provisions of the Contract in any way for such period or periods of time as the Owner may deem necessary due to unsuitable weather or such other conditions considered unfavorable for the suitable prosecution of the Work, including, in part, failure of the Contractor to supply labor, Materials, or Equipment meeting the requirements for the Contract Documents; or failure to carry out instructions or to perform such other provisions of the Contract considered unfavorable for the orderly or suitable prosecution of the Work. During periods of suspension, the Contractor shall properly protect the Work from possible damage. Orders for suspension or reinstatement of the Work shall be issued by the

Owner to the Contractor in writing.

72. RIGHT OF OWNER TO TERMINATE CONTRACT

Should it appear any time that the Work is not being prosecuted with sufficient competence or rapidity to insure the proper completion of the Work within the Contract Time, and if upon seven (7) Calendar Days' written notice to the Contractor, he fails to increase the quality or the quantity of his Work or both, the Owner reserves the right to terminate the Contract and relet the Work or any part thereof, or at the Owner's option to complete it by day labor. The Contractor shall not be entitled to any claims for damages on account of such termination, and he will be held liable for costs and expenses incurred in reletting or completing the Work under the Contract. All money due the Contractor will be retained until the Work is completed and all expenses and costs have been deducted and any money due the Owner, after such deductions have been made, shall be paid by the Contractor or his Surety who hereby agrees to these provisions.

73. TERMINATION FOR CONVENIENCE

- A. Termination Notice - The Owner may terminate Work under this Contract in whole or in part if such determination is in the Owner's best interest. Contract termination will be initiated by the Owner's written Contract Termination Notice to the Contractor which will specify the effective date of termination.
- B. Canceled Commitments - The Contractor, after receiving the Contract Termination Notice, shall cancel any outstanding commitments for procurement of Materials and Equipment. In addition, the Contractor shall use reasonable effort to cancel or divert any outstanding subcontracted commitments to the extent they relate to any Work terminated unless otherwise requested by the Owner. With respect to such canceled commitments the Contractor shall:
 - 1. Settle all outstanding liabilities and all claims arising out of these canceled commitments. Such settlements shall be approved by the Owner and shall be final; and
 - 2. Assign to the Owner all of the rights, title and interest of the Contractor under the terminated orders and subcontracts as directed by the Owner. The Owner will then have the right to settle or pay any or all claims arising out of the termination of these commitments.
- C. Termination Claim - The Contractor shall submit its termination claim to the Owner within ninety (90) Calendar Days after the effective date of the Contract Termination Notice. During the ninety Calendar (90) Day period, the Contractor may make a written request to the Owner for a time extension in preparing the claim. Any time extension must be approved by the Owner. If the Contractor fails to submit its termination claim within the time allowed, the Owner may determine the amount due the Contractor, if any, by reason of the termination.
- D. Payment - Subject to Paragraph C above, the Contractor and Owner may agree upon the whole or any part of the amount to be paid the Contractor as a result of the termination. The amount may include reasonable cancellation charges incurred by the Contractor. The amount may also include any reasonable loss upon outstanding commitments for subcontracts which the Contractor is unable to cancel, provided the Contractor has proven reasonable effort to divert the commitments to other activities. The amount agreed upon shall be embodied in a Contract Change Order and the Contractor shall be paid that amount. Payments claimed and agreed to pursuant to termination shall be based on

the Contract Unit Prices. Payment for partially completed lump sum items may be made in the proportion that the partially completed Work is to the total lump sum item. Where Work performed is of a nature that it is impossible to separate the costs of uncompleted Work from completed units, the Contractor shall be paid the actual cost incurred for the necessary preparatory Work and other Work accomplished.

The Owner may from time to time, under the terms and conditions it may prescribe, make partial payment against costs incurred by the Contractor in connection with the Contract termination. The total of such payments shall not exceed the amount, as determined by the Owner, the Contractor will be entitled to hereunder.

- E. Disposition of Work and Inventory - The Contractor shall transfer title and deliver to the Owner, such items which, if the Contract had been completed, would have been furnished to the Owner including:
1. Completed and partially completed Work; and
 2. Materials or Equipment produced or in process or acquired in connection with the performance of the Work terminated by the notice.

Other than the above, any termination inventory resulting from the Contract termination may, with written approval of the Engineer, be sold or acquired by the Contractor under the conditions prescribed by and at prices approved by the Engineer. The proceeds of any such disposition shall be applied to reduce any payments to the Contractor under this Contract, or shall otherwise be credited to the cost of Work covered by this Contract, or paid in a manner as directed by the Engineer. Until final disposition, the Contractor shall protect and preserve all the Material and Equipment related to this Contract which is in his possession and in which the Owner has or may have an interest.

- F. Cost Records - The Contractor agrees to make cost records available to the extent they are necessary to determine the validity and amount of each item claimed.
- G. Contractual Responsibilities - Termination of a Contract or portion thereof shall not relieve the Contractor of contractual responsibilities for the Work completed, nor shall it relieve the Surety of its obligation for and concerning any just claim arising out of the Work performed.

74. LIQUIDATED DAMAGES - TIME AN ESSENTIAL ELEMENT

- A. It is mutually understood and agreed by and between the parties to the Contract that in the execution of the same, time is an essential element of the Contract, and it is important that the Work progress vigorously to completion.
- B. The Contractor agrees that said Work shall be prosecuted regularly, diligently, and uninterrupted at such rate of progress as will insure Substantial Completion thereof within the Contract Time. It is expressly understood and agreed, by and between the Contractor and the Owner, that the completion time set forth in the Contract Documents is a reasonable time for the completion of the Work, taking into consideration the average of the preceding ten (10) years' climatic range during the specified Contract Time based on U.S. Weather Bureau statistics for the locality where the Work is performed and the usual industrial conditions prevailing in that locality.

Construction Contract and General Conditions

Project Name

Page 58

- C. If the Contractor neglects, fails, or refuses to complete the Work within the Contract Time, then for each Calendar Day after the end of the Contract Time, Substantial Completion of the Work is not achieved, the amount per Calendar Day specified in the Special Conditions shall be assessed by the Owner, not as a penalty, but as a predetermined and agreed upon liquidated damage.
 - 1. The amount of Liquidated Damages is hereby agreed to be \$2,300 per calendar day after the end of the Contract Time..
- D. The said amount is fixed and agreed upon by and between the Contractor and the Owner because of the impracticability and extreme difficulty of fixing and ascertaining the actual damages the Owner would sustain in the event the Work is not completed within the Contract Time.
- E. The Owner shall have the right to deduct said Liquidated Damages from any money due, or to become due to said Contractor and to sue for and recover any additional compensation for damages for non-performance of the Contract at the time stipulated and provided for in the Contract Documents.
- F. The assessment of Liquidated Damages for failure to complete the Work within the Contract Time shall not constitute a waiver of the Owner's right to collect any additional damages which the Owner may sustain by failure of the Contractor to carry out the terms of this Contract.
- G. If Liquidated Damages for milestones are specified in the Special Conditions, all conditions as set forth for Liquidated Damages shall apply to each and every milestone specified. All milestones represent independent damages the City will suffer and shall therefore be viewed independently. All milestones shall be accumulative, increasing by the amount specified for each date the Contractor does not achieve substantial completion for each specific milestone. If the Contractor fails to obtain Substantial Completion within the allowed Contract Time, the Liquidated Damages for milestone dates shall cease to accrue and Liquidated Damages for failure to complete the Work will commence.

75. EXTENSION OF CONTRACT TIME

- A. The Contractor expressly covenants and agrees that in undertaking to complete the Work within the Contract Time, he has taken into consideration and made allowances for all delays and hindrances incidental to such Work, whether growing out of delays in securing Materials and Equipment or workmen, normal inclement weather, or otherwise.
- B. If the Contractor is delayed at any time in the progress of the Work by an act or omission of the Owner, or its designated representative, any separate contractor employed by the Owner, or by Changed or Extra Work, industry-wide labor strikes, fire, epidemics, quarantine restrictions, freight embargoes, unavoidable casualties, abnormal weather conditions, any causes beyond the Contractor's control, or by any other cause which the Owner determines may justify the delay, then the Contract Time shall be extended for such reasonable time as the Owner may determine based on the timing and submittal requirements of this Section provided, however, that such delay could not have been avoided by the exercise of due diligence by the Contractor.
- C. No extension of the Contract Time will be granted for:

1. Variations between original Contract quantities and actual quantities which cannot be predetermined and which variance (plus or minus) is less than twenty five (25) percent of the Contract quantities.
 2. Rain, snow, wind, flood, or natural phenomena of normal intensity for the locality where the Work is performed.
 3. Acts or omissions of the Contractor or its Subcontractors.
 4. Delays occurring concurrently (either at the same time, on the same critical path or on a concurrent critical path) with delays attributable to acts or omissions of the Contractor or its Subcontractors.
 5. Delays occurring to activities which are not on the then-current critical path.
- D. A Request for an Extension of the Contract Time shall be made in writing to the Owner not later than seven (7) Days after the commencement of the delay. In the case of a continuing delay for the same cause only one request is necessary.

The Contractor shall support its Request for an Extension of the Contract Time with a supplemental submittal, which shall be filed with the Owner within fourteen (14) Days of making the Request. The Contractor's supplemental submittal shall include:

1. A description of the activities that were delayed, the reasons for the delay, an explanation of how they were delayed and a detailed factual statement relative to all relevant dates, locations, etc.
 2. A schedule analysis (based on the critical path method) which shows in graphic form how and where a delay on the then-current critical path occurred and its effect on the Contract Time.
 3. An explanation of the Contractor's efforts to reschedule the Work in order to mitigate the effect of the delay and/or prevent further delays resulting from such cause.
- E. If abnormal weather conditions are the basis for a Request for an Extension of the Contract Time, such Request shall be supported by data substantiating that weather conditions during the period of time impacted were unusually severe for the time period, and could not have been reasonably anticipated. To establish the existence of abnormal weather, the Contractor must submit documentation which shows that the weather conditions experienced fall outside of the extreme ranges of weather data for the Denver area published by the National Climatic Data Center during the same month over the prior ten (10) year period. The existence of abnormal weather shall not relieve the Contractor of the burden of proving that the abnormal weather delayed specific activities that were on the then-current critical path that controlled the overall completion of the Work.
- F. Failure to strictly comply with the timing and submittal requirements of this Section shall constitute a waiver of any Request for an Extension of the Contract Time. All extensions to the Contract Time shall be by Contract Change Order. No oral time extensions shall be granted by the Owner or relied upon by the Contractor.

- G. Notwithstanding anything to the contrary in the Contract Documents, an Extension to the Contract Time, to the extent permitted under this Section, shall be the sole and exclusive remedy of the Contractor for any delay in the commencement, prosecution or completion of the Work; hindrance, interference, or obstruction in the Contractor's performance of the Work; loss of productivity; or other similar claims, whether or not such delays are foreseeable. IN NO EVENT SHALL THE CONTRACTOR OR ITS SUBCONTRACTORS BE ENTITLED TO ANY COMPENSATION OR RECOVERY OF ANY DAMAGES, IN CONNECTION WITH ANY DELAY TO THE CONTRACT WORK. THE CONTRACTOR HEREBY WAIVES ANY AND ALL CLAIMS PAST, PRESENT OR FUTURE FOR MONETARY DAMAGES ARISING OUT OF OR RELATED TO ANY DELAY OR INTERFERENCE INCLUDING, WITHOUT LIMITATION, CONSEQUENTIAL DAMAGES, LOST OPPORTUNITY COSTS, IMPACT DAMAGES, ACCELERATION DAMAGES, LOSS OF LABOR PRODUCTIVITY DAMAGES, ALL OTHER TIME-RELATED DAMAGES, OR OTHER SIMILAR REMUNERATION AGAINST THE OWNER. The Owner's exercise of any of its rights or remedies under the Contract Documents regardless of the extent or frequency of the Owner's exercise of such rights of remedies shall not be construed as active interference with the Contractor's performance of the Work.

76. CONTRACT IN DEFAULT

The Owner may declare the Contract in default for any one or more of the following reasons as determined by the Owner in his sole discretion:

- A. Failure to complete the Work within the Contract Time or any proper extension thereof granted by the Owner.
- B. Failure or refusal to comply with an instruction of the Owner within a reasonable time.
- C. Failure or refusal to remove rejected Materials or Equipment.
- D. Failure or refusal to perform any Work or repair any Defective or unacceptable Work.
- E. Bankruptcy or insolvency, or the making of an assignment for the benefit of creditors.
- F. Failure to provide a qualified Superintendent, or sufficient and competent workmen or Subcontractors to carry on the Work in a satisfactory and Good and Workmanlike Manner; or failure to prosecute the Work in accordance with the Contractor's Schedule of Work.
- G. Failure to provide proper Materials, and Equipment.

77. CONTRACT IN DEFAULT - PROCEDURE FOR DECLARING

The Owner may declare the Contract in default by giving written notice to the Contractor and his Surety to that effect. Said notice shall contain the reason or reasons for default and shall fix a day certain, not less than seven (7) Calendar Days after the date of said notice, when the Contract shall be declared in default, unless the Contractor or his Surety remedies the default to Owner's satisfaction or makes satisfactory arrangements with the Owner for its remedy prior to the day certain fixed in said notice for declaring the Contract in default. The Owner may, at its sole option, extend the day certain for declaring the Contract in default without prejudice to the Owner's right to thereafter declare the Contract in default. If the Contractor or his Surety fail to remedy the default or make arrangements for its remedy prior to the date set for declaring the Contract in default, or any extension thereof, the Contract shall be declared in default.

78. CONTRACT IN DEFAULT - COMPLETION OF

- A. If for any reason a Contract is declared in default, the Surety shall have the right to take over and perform the Contract; provided however, if the Surety does not commence performance thereof within seven (7) consecutive Calendar Days after the date of notice to the Contractor and his Surety that the Contract has been declared in default, the Owner, without process or action at law, may take over all or any portion of the Work and complete it at Owner's option whether by reletting or by day labor, for the account and at the expense of the Contractor or his Surety.
- B. Whether the Surety takes over and completes the Contract, or the Owner takes over and completes it by reletting or day labor, the Contractor and his Surety shall be liable to the Owner for any cost in excess of the original Contract Price expended in completing the Work, including in part, any direct and indirect costs and the professional services, and any Liquidated Damages stipulated in the Special Conditions, together with such other damages which the Owner may suffer on account of the Contractor's nonperformance of his Contract. The Owner may waive such portion of the Liquidated Damages as may occur after the Work is in condition for the safe, convenient and beneficial use or occupancy by the Owner for all of the purposes for which it was intended.
- C. In the event the Owner takes over the Work and prosecutes the same to completion, either by reletting or by day labor, the Contractor shall peaceably relinquish possession of said Work or the parts thereof specified in the above notice of declared default to the Contractor and his Surety.
- D. The Owner may, at Owner's option and at a rental which it considers reasonable, take possession of and utilize in completing the Work such Material, Equipment, and Construction Equipment on the site of the Work and suitable therefor until the Work is complete.
- E. All money due the Contractor shall be retained until the Work is completed and all expenses and costs have been deducted and any money due the Owner after such deductions or adjustments have been made as herein provided shall be paid by the Contractor or his Surety who hereby agree to all provisions herein.
- F. Neither the Owner, nor any of its officers, agents, or employees shall be in any way liable or accountable to the Contractor or his Surety for the method by which the completion of the said Work, or any portion thereof, may be accomplished or for the price paid therefor. Should the cost of the Contract completion, including all proper charges, be less than the original Contract Price, the amount so saved shall be paid to the Contractor.

- G. The Owner, notwithstanding the method used in completing the Contract, shall not forfeit the right to recover damages from the Contractor or his Surety for the Contractor's failure to complete his entire Contract. The Contractor shall not be entitled to any claim for damages on account of the method used by the Owner in completing the Contract.
- H. Maintenance of the Work shall continue to be the Contractor's and his Surety's responsibilities as provided for in the bond or guaranty requirements of the Contract Documents or any special guaranties provided under the Contract Documents.

79. WARRANTY

In addition to other promises and warranties contained herein the Contractor specifically warrants to the Owner that Materials and Equipment furnished under the Contract will be of good quality and new unless otherwise required or permitted by the Contract Documents, that the Work will be free from defects not inherent in the quality required or permitted, and that the Work will conform with the requirement of the Contract Documents. Work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered Defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, modifications not executed by the Contractor, improper or insufficient maintenance, improper operation, or normal wear and tear under normal usage. If required by the Owner, the Contractor shall furnish satisfactory evidence as to the kind and quality of Materials and Equipment.

Neither the final certificate of payment nor any provision in the Contract Documents nor partial or entire occupancy of the premises by the Owner shall constitute an acceptance of Work not done in accordance with the Contract Documents or relieve the Contractor of liability in respect to any expressed or implied warranties or responsibility for faulty Materials or Equipment or workmanship.

80. OWNER'S REMEDIES CUMULATIVE AND NONWAIVER

No right or remedy conferred upon or reserved to the Owner by the Contract shall be considered exclusive of any other remedy or contractual right, but the same shall be distinct, separate, and cumulative, and shall be in addition to every other remedy existing at law or in equity or by statute; and every remedy given by the Contract to the Owner may be exercised from time to time as often as the occasion may arise, or as may be deemed expedient. No delay or omission on the part of the Owner to exercise any right or remedy arising from any default on the part of the Contractor shall impair such right or remedy or shall be construed to be a waiver of any such default or an acquiescence thereto, or otherwise affect the right of the Owner to enforce the same in the event of any subsequent breach or default by the Contractor.

81. DISPUTE VENUE

The Contractor shall be solely responsible for any deductible losses under the policies required above.
7. The Contractor shall not be relieved of any liability, claims, demands, or other obligations assumed pursuant to this Contract by reason of its failure to procure and maintain insurance, or by reason of its failure to procure or maintain insurance in sufficient amounts, durations, or types.
8. As an independent contractor the Contractor is not entitled to Worker's Compensation benefits under Montrose's plan. Further the Contractor is obligated to pay federal and state income tax on any monies earned pursuant to this contractual relationship.
