

ADDENDUM #1

PROJECT: South 3rd Plaza Design
BID NO: 22-018
FROM: Scott Murphy
DATE: July 1, 2022

Questions and Answers

1. *What level of design and plans are anticipated for lighting on the project?*

Answer: Lighting designs and plans are envisioned to include pedestrian lighting for South 3rd Street, the new plaza, the new parking lot, and the monument signage. On South 3rd, this is envisioned to include decorative lighting of similar style and spacing as that present along the northern side of the road. The existing “quad” plaza contains four pedestrian lights; it is envisioned the new plaza extension would contain similarly-spaced lights of the same style. For the parking lot, these lights would be the same style as those in the quad and spaced as appropriate to promote parking lot safety. Monument signage lighting will be per the signage design.
